

Engineering Technician - Tulsa, OK

Come grow with GUY Engineering (GUY) where you will be an integral part of our team FROM DAY ONE as an employee owner in our Employee Stock Ownership Plan (ESOP). GUY provides civil engineering, roadway and bridge design, storm sewer design, waterline design, surveying, utility relocation management and planning services for clients throughout the State of Oklahoma. Our diverse expertise and experience allows us to serve clients within municipalities, counties, and the State of Oklahoma. From start to finish we take pride in the quality of our work and ability to maintain a high level of satisfaction with our clients. GUY has offices in Tulsa and Oklahoma City.

We are currently seeking to hire an Engineering Technician, **with 3-6 years of industry experience**, in our Tulsa office. Responsible for preparation of technical drawings and plans for civil engineering projects with moderate design knowledge in a specialty area, i.e. road, bridge, utilities, drainage, etc. **Civil3D experience is required.**

Responsibilities include but are not limited to:

- Proficient in preliminary and final design plan production.
- Prepares engineering drawings using AutoCad/Civil 3D design software according to specifications in the CAD manual.
- Demonstrates knowledge of design including geometry, horizontal and vertical alignment design, utility relocation, earthwork and other quantity computations.
- Demonstrates ability to manage production of multiple drawings /projects at the same time.
- Review drawings for completeness and accuracy as defined in the CAD manual.
- Understands and incorporates standards and specifications from customers.
- Adheres to all guidelines set forth in the CAD manual, including organizing and maintaining all versions of drawings and specifications.
- Works closely with engineers to ensure coordination of design effort.
- Completes drawing/project responsibilities within scope, budget and schedule.

Job Requirements

Bachelor's degree in Design/Drafting Technology and/or the equivalent of 3-6 years of industry experience.

- Proficient in AutoCad and/or Microstation.
- Civil 3D experience is required.
- Intermediate level math proficiency with computations, geometry and trigonometry.

We offer an excellent benefit and compensation package including medical, dental, vision, life, disability plans and two retirement plans: a 401(k) and an ESOP.

Please submit your resume and salary requirements.
